Full Synthetic Engine Oil SN/CF

This product is a very advanced full synthetic engine oil that has been developed for gasoline and diesel engines. The full synthetic technology in this engine oil is several times more able to effectively remove sludge and dirt from engines than a mineral oil. This product meets and exceeds many of the industry and OEM specifications required by newer modern gasoline and diesel powered automobile engines. This product has active cleaning agents that help to reduce the deposit and sludge build up in the engine. This product can be recommended for all types of modern vehicles including vehicles with turbochargers, superchargers and multi-valve injected engines.
