MID SAPS Engine Oil C2

This is a full synthetic engine oil that is developed for the PSA EURO VI Blue HDi DW10F engines with exhaust after treatment and turbocharger. The ACEA C2 specification ensures that it is also particularly suitable in vehicles outside the PSA group as well. One substantial property of this oil is that a fuel economy of over 4% is generated. This product has been developed specifically for vehicles that have start-stop mechanisms. Because of its excellent cold start properties it provides excellent engine protection at engine lower temperatures. This product is perfectly suitable for vehicles that ensure extended service intervals.
