

# Rex Ester SAE 5W40

4-Stroke Motorcycle  
& Scooter Engine Oils

## Rex Ester SAE 5W40

### 4-Stroke Ester Technology Scooter Oil

This ester-based synthetic blend is expertly formulated for use in engines, transmissions, and wet clutches, making it a versatile and high-performing choice for motorcycle enthusiasts. With its groundbreaking additive technology, this oil not only elevates engine performance but also ensures comprehensive protection of all lubricated components, significantly improving the performance of engines, transmissions, and wet clutches. Ideal for both touring and daily riding, this oil is the recommended product for riders who demand reliability and efficiency in diverse conditions. Its great fluidity at low temperatures ensures complete and immediate protection of all engine parts right from the start, enhancing the overall riding experience.

BASE OIL:  
**FULL SYNTHETIC**

#### SPECIFICATIONS

API SN

JASO MA2

GRADE	METHOD	UNIT	VALUE
Density	ASTM D4052	kg/l	0,855
Kinematic viscosity @ 40 °C	ASTM D445	mm <sup>2</sup> /s	85,0
Kinematic viscosity @ 100 °C	ASTM D445	mm <sup>2</sup> /s	13,8
Viscosity Index	ASTM D2270		169
B.N. (HCL04 method)	ASTM D2896	mg KOH/g	7,3
Pour point	ASTM D6892	°C	-42
Flash point	ASTM D92	°C	-
Sulphated ash content	ASTM D874	%	-
